

REPAIR/REPLACEMENT LIST FOR MAINTENANCE UPDATED 4-5-2025

The following document lists a number of items that are commonly needed for maintenance and upkeep of a Unit. The requirements each item must meet in order to be approved are shown in the “DESCRIPTION” column. Manufacturers/providers for each item are listed in the “SOURCE” column for the convenience of the Owner and do not necessarily represent an endorsement by the Board.

Alternate suppliers/manufacturers may be used if the Owner can demonstrate that materials, functionality, color, etc., are equal to the original item specified, including submitting a sample to the Board for approval. Unit Owners are reminded that, in accordance with the Villas Master Deed, any changes, modifications, or improvements to the exterior of the Units must have prior written approval from the Board. Requests for approval should be submitted to the Board on an Architectural Request Form. The Architectural Request Form is located on the Villas’ website (barringtonvillas.com).
